

SCALP ANTI-M 3100

ULTRA-POWERFUL 2 IN 1 PRODUCT — A CURATIVE AND WATER-REPELLENT BIOCIDES

DISINFECTS, DESTROYS ALGAE, LICHENS, GREEN FILM, AND PROTECTS AGAINST WATER PENETRATION

P PRODUCT BENEFITS

- Ultra fast-acting product
- 2 in 1: biocide + water-repellent = economical and practical
- No rinsing
- Very easy to apply
- Ideal for all surfaces
- Very effective
- Curative and preventive
- Very long-lasting, over 2 years (depending on climate)
- Mild odour

PACKAGING :

- 20 L: 24 x 20 L pallet
- 5 L: 96 x 5 L pallet (pack of 4 x 5 L units)

A AREAS OF APPLICATION

SCALP ANTI-M 3100 is a 2 in 1 product:

- A biocide and algicide, it disinfects surfaces, destroys algae, lichens and green film at lightning speed. Both preventive and curative, it acts effectively in 2 hours and provides long-lasting protection of 2 to 5 years, depending on climate.
- SCALP ANTI-M 3100 is water-repellent, so protects against the penetration of water and limits urban soiling.

It can be used on rooftops, façades, walls and outside floors, and to finish off a new construction or renovation. It is perfectly suited to surfaces made of: tiles, slates, fibrocement, shingles, stones, mineral coatings, bricks, plaster, concrete, roughcast, thick plastic coatings, wood etc.

A APPLICATION

1. DILUTION: Dilute 1 litre of SCALP ANTI-M 3100 in 7 litres of water (see our sales department).

SCALP is a French family-owned business and manufacturer of cleaning, protection and treatment solutions, with over 65 years as a construction-industry specialist.

2. APPLICATION EQUIPMENT: Brush, roller, sprayer.

3. MODE OF OPERATION: Apply SCALP ANTI-M 3100 to completely dry surfaces, until saturated. Leave to work. In the event of a thick layer of micro-organisms, remove mechanically. Once treated, the surface will regain a clean appearance after 2 hours. Never rinse after application.

4. APPLICATION TIME: This solution works by impregnation.

5. APPLICATION TEMPERATURE: 5 °C to 50 °C. Effectiveness is reduced at extreme temperatures.

6. TOOL CLEANING: Clean tools with water as soon as possible after application.

7. YIELD: 200 to 300 ml / m².

8. STORAGE: Store product in frost-free premises, away from the elements and direct sunlight. Do not store at temperatures < 5 °C.

* Yield information is only provided as a rough guide. This information is useful to determine the amount needed for the work. This information is in no way contractual. The exact quantity of product to be applied can only be established through tests, based on the different surfaces to be treated.

PHYSICOCHEMICAL PROPERTIES

APPLICATION PRECAUTIONS

1. PROTECTION OF SURFACES: Avoid splashing on surrounding vegetation.

2. PROTECTION OF PERSONS: In the event of splashing on the skin and face, wash thoroughly with water. Wear PVC gloves. Wear a helmet with a protective visor to shield the face during spray application. Wear safety goggles when applying with a roller or brush. Wear suitable overalls (waterproof).

3. SOILED PACKAGING: must be completely emptied out. After cleaning with a suitable detergent, it may be reused. Unused product must be incinerated at an approved centre. The packaging may be discarded as non-hazardous waste under the entire responsibility of the owner of this waste. Residue must not be poured down the drain or into watercourses.

In the event of swallowing, do not induce vomiting, but immediately see a doctor and show them the packaging or label. Contact the nearest poison centre (Paris: 01 40 05 48 48, Lyon: 04 72 11 69 11, Marseille: 04 91 74 51 80).

Important: The contents of this document stem from our experience with the product. We cannot be held liable as far as its use is concerned in every individual case. Given the particular characteristics of each surface (wear, alteration of the entire surface and/or its properties, chemical composition etc.), and to avoid any damage to the surface to be treated, it is essential that some of the SCALP product be tested on a small area to be treated, by following the procedure for application, and thereby ensuring that there is no alteration. Professional product: dangerous, follow application precautions. Wear personal protective equipment (PPE) and refer to the safety data sheet (SDS).

SCALP is a French family-owned business and manufacturer of cleaning, protection and treatment solutions, with over 65 years as a construction-industry specialist.
