

SCALP BRAKE CLEANER

SUPER-POWERFUL CLEANER AND GREASE REMOVER FOR BRAKES

P PRODUCT BENEFITS

- Effectively dissolves deposits
- Fast-acting: immediate results
- Does not leave residue
- Non-conducting
- Non-corrosive
- Fast-drying
- Used regularly: helps to extend the life of brake discs and pads.

PACKAGING:

- 5 L: 4 x 5 L pack

A REAS OF APPLICATION

SCALP BRAKE CLEANER is a cleaner and grease remover that has been specially designed to remove all types of deposits found on brakes, like residue from tar, fresh glue, grease, dust and other impurities that harm the proper functioning of the mechanism. It works immediately and dries quickly.

It can be used on drum brakes as well as on disc brakes, linings, callipers or shoes.

When used regularly, SCALP BRAKE CLEANER helps to extend the life of brake discs and pads.

A PPLICATION

1. DILUTION: Ready-to-use product.

2. APPLICATION EQUIPMENT: Brush (paint) or manual sprayer.

3. MODE OF OPERATION: Apply product by painting on with a brush or spray onto the surface to be cleaned until the dirt completely disappears. Collect and treat used product as a chemical waste.

4. APPLICATION TEMPERATURE: 5 °C to 30 °C. Effectiveness is reduced at extreme temperatures.

5. TOOL CLEANING: Tools must be cleaned with the product itself or water, straight after use.

6. YIELD: About 200 ml / m², depending on level of dirt.

SCALP is a French family-owned business and manufacturer of cleaning, protection and treatment solutions, with over 65 years as a construction-industry specialist.

7. STORAGE: Store product in frost-free premises, away from the elements and direct sunlight.

* Yield information is only provided as a rough guide. This information is useful to determine the amount needed for the work. This information is in no way contractual. The exact quantity of product to be applied can only be established through tests, based on the different surfaces to be treated.

APPLICATION PRECAUTIONS

1. PROTECTION OF SURFACES: Do not apply to rubber. Can have adverse effects on plastic. It is recommended to first test and if necessary, protect surfaces. Flammable product: keep away from any source of heat and sparks. Avoid splashing on surrounding vegetation.

2. PROTECTION OF PERSONS: Avoid contact with eyes and skin. In the event of contact, wash thoroughly with water. Wear PVC gloves. Wear a helmet with a protective visor for the face or, failing this, wear safety goggles when using a spray. Wear suitable overalls (waterproof). Use in well-ventilated premises.

Important: The contents of this document stem from our experience with the product. We cannot be held liable as far as its use is concerned in every individual case. Given the particular characteristics of each surface (wear and tear, alteration of the entire surface and/or its properties, chemical composition etc.), and to avoid any damage to the surface being treated, it is essential that the Scalp product be tested on a small area to be treated, by following the procedure for application, in order to ensure that no alteration occurs.

SCALP is a French family-owned business and manufacturer of cleaning, protection and treatment solutions, with over 65 years as a construction-industry specialist.
