

# SCALP PROTEC MAGIC

PERMANENT SINGLE-COMPONENT ANTI-GRAFFITI PROTECTION

ALLOWS OVER 100 GRAFFITI REMOVALS ON THE SAME SURFACE

- **Application area:**

- SCALP PROTEC MAGIC is an extremely resistant, permanent, single-component graffiti protection. This advanced formula provides an effective barrier against graffiti, preserving the aesthetic appearance of treated surfaces while facilitating subsequent cleaning.

- Graffiti is easily removed by friction using special cleaners, SCALP SENSITIVE SURFACE CLEANER or WIPES EXPRESS 70 SPECIAL GRAFFITIS wipes. This feature makes graffiti removal a fast, effortless process, quickly restoring surfaces to their original appearance without leaving unwanted marks or residues.

- **Application:**

**A) APPLICATION OF THE PROTECTION :** Thoroughly mix SCALP PROTEC MAGIC and then apply it on the surface to be treated in a single layer. Avoid any excess product that could cause drips and leave traces on the surface. Apply SCALP PROTEC MAGIC on clean and dry surfaces.

**B) GRAFFITI CLEANING :** SCALP SENSITIVE SURFACE CLEANER: Apply SCALP SENSITIVE SURFACE CLEANER on the graffiti using small circular movements and let it act. Wipe with a cloth. Repeat the process if necessary. WIPES EXPRESS 70 SPECIAL GRAFFITIS: By gently rubbing, a single anti-graffiti wipe removes unwanted paints and graffiti.

- **Yield :**

From 150 to 250g/m<sup>2</sup> depending on the type of surface.

- **Packaging:**

5KG

## PRODUCT ADVANTAGES

- Suitable for all surfaces
- Allows over 100 graffiti cleanings
- Excellent UV and abrasion resistance: does not yellow
- Very easy application
- Single-component product
- Suitable for both indoor and outdoor use
- Graffiti removal by friction with SCALP SENSITIVE SURFACE CLEANER or WIPES EXPRESS 70 special graffiti wipes.

**Important:** The content of this documentation is based on our product experience. However, it cannot be held responsible for its use in each specific case. Considering the unique characteristics of each surface (wear and tear, alterations in integrity and/or properties, chemical composition, etc.), and to prevent any damage to the treated surface, it is essential to conduct a test of the Scalp product on a small area following the application procedure to ensure that no alterations occur.

This is a professional product and can be hazardous. Please observe the necessary precautions while handling it. Wear appropriate Personal Protective Equipment (PPE) and consult the Safety Data Sheet (SDS).
